SUMMARY

Passionate IT undergraduate with a strong interest in developing modern and user-friendly web applications. Eager to learn new technologies and continuously improve software development skills. A responsible, adaptable, and collaborative team player with strong problem-solving and communication skills, seeking practical industry experience and an opportunity to contribute effectively to a professional development team.

SKILLS

Languages & Frameworks: Python, Java, Dart, PHP, JavaScript, HTML, CSS, React.js, Flutter
Databases & Tools: MySQL, Firebase, Git, GitHub, Docker, Postman
Other: REST APIs, UI/UX
Soft Skills: Teamwork, Communication, Problem Solving, Time Management, Self-Learning

PROJECTS

Smart Medical Hand Band – SentinelCare | Final Year Group Project | Flutter, Firebase, BLE, IoT Sensors, Web Dashboard | GitHub Repository

- Developed a low-cost IoT-based wearable system for elderly people living alone.
- Implemented health monitoring using heart rate, SpO_2, and body temperature sensors.
- Integrated fall detection using accelerometer, gyroscope, and pressure sensors.
- Developed a Flutter mobile application for caregivers and a web dashboard for report viewing.

University Student Event Management System | Group Project | React, JavaScript, Tailwind CSS | GitHub Repository

- Designed and developed a web-based platform for managing and discovering university events.
- Created user-friendly interfaces for event browsing, registration, and event information management.
- Applied UI/UX principles to improve usability and accessibility.

ATmega32 Smart Home Automation System | Group Project | C, ATmega32, Proteus, Microchip Studio

- Developed a microcontroller-based smart home automation system using multiple sensors.
- Implemented temperature, gas leakage, light, and humidity monitoring features.
- Designed automated control mechanisms for devices such as fans, LEDs, and buzzers.

Personal Portfolio Website | Individual Project | React, JavaScript, HTML, CSS | Live Demo | GitHub Repository

- Designed and developed a responsive personal portfolio website to showcase my projects, skills, and contact details.
- Built reusable React components and implemented smooth section-based navigation.
- Used HTML and CSS to create a clean, mobile-friendly layout, applying UI/UX principles for better usability.

EDUCATION & CERTIFICATIONS

- **Higher National Diploma in Information Technology** | Institute of Technology, University of Moratuwa | 2025 – Present
- Certificate Course in Python for Beginners | CODL, University of Moratuwa
- Certificate Course in Basics of UI/UX | Simplilearn SkillUp
